### Pôle Mer Méditerranée (Sea Innovation and Business Cluster) and the Centre Français du Littoral Promoters of the third Coastal & Maritime Mediterranean Conference CM<sup>2</sup>

*In Ferrara - Italy*  
*In collaboration with the Italian partners*

This conference follows up the second Coastal & Maritime Mediterranean Conference held in Tangier (Morocco) in 2011 planned by the Centre Français du Littoral and Pôle Mer Méditerranée but with a stress on corporation activity and intended for both French-speaking and non French-speaking Mediterranean countries. The management of the meeting is conducted in parallel with the host country: Italy in 2015.

This three-day Mediterranean Conference comprises two days of conference work including oral presentations and posters separated by one day dedicated to technical visits bearing on important coastal and maritime engineering projects and round tables or workshops.

The goals of this Special Mediterranean Conference are:

- up-to-date knowledge acquisition as far as coastal and maritime engineering in the Mediterranean is concerned;
- allowing exchange of ideas between specialists on concerned subjects;
- promoting comparison of analyses and experience between researchers and entrepreneurs;
- favouring contacts between decision-makers, corporations and researchers;
- presenting new material and techniques, together with the available documents (technical stands);
- diffusing information on pedagogical activities, research and training concerning coastal and maritime engineering around the Mediterranean;
- favouring network creation;
- promoting and implementing Mediterranean research projects;
- developing Mediterranean inter-university and inter-corporation collaborations.
